FIGHTING FOR OUR BRITAIN

Editor
Charlie Wythe

We, the British people, have a rich and wonderful history and have created for ourselves a vibrant and iconic culture revered the world over.

It's something we should be very proud. But that doesn't stop loathsome anti-British politicians and media from repeatedly denouncing it, while in the same breath, demanding that we respect and submit to others.

Like you, we've had enough, and we're doing something about it!

In the face of this attack on the British people, it's left to us to preserve and

protect our precious and unique British identity.

In this series of IDENTITY publications we provide you with a popularist and easy-to-read insight into the nationalist policies necessary to make Britain better.

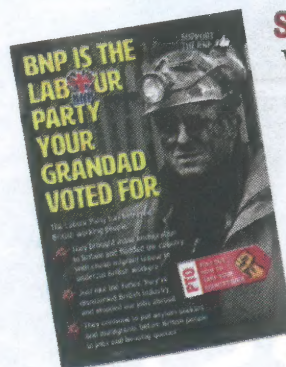

PUTTING BRITISH PEOPLE FIRST

The BNP is not indebted to international big business, we're not owned by multi-millionaire investors with their own selfish interests, nor are we dictated to by union bosses. That's the reason why the BNP is universally recognised as being Britain's only genuine anti-Establishment political party.

The BNP is different

The BNP is funded entirely by the generosity of the British people. That's the reason why we fight for the interests of the British people – and the reason we're hated by the greedy, corrupt old political Establishment.

Standing up for Britain

Whether it's resisting the Islamisation of Britain, opposing foreign wars which have nothing to do with British interests, campaigning to protect and build our NHS, driving to renationalise our public services, fighting for the fair treatment and welfare of animals, defying European Union dictatorship or fighting to protect those most vulnerable in our communities – the BNP puts the interests of the British people first in our homeland every time, because charity begins at home.

Fighting for freedom

The British people built this nation. We fought and spilled our blood time and time again to protect our hard-won freedoms from tyranny.

We've built a Britain that is the envy of the world – universally respected for our principles of justice, fair play and freedom for all.

A brighter future

The BNP is made up of people just like you, people that have had enough of the rotten old political Establishment which has overseen the ruin of our once great country.

It's up to ordinary people to take a stand and take back our country. That's why people like you have helped build the BNP, and it's people like you who, united with like-minds and collective determination, will make sure our country is restored to the British people and our future generations have a country they can call their own.

Follow us online

BNP social media platforms are bringing like-minded patriots like you together and giving you a voice reaching millions of people. Just a single BNP Facebook viral image reached a staggering 32Million people!

Follow us on Facebook and Twitter and read more in-depth articles on the official BNP website at www.bnp.org.uk

You can also directly interact with BNP representatives on Facebook and we'll be glad to answer any questions you might have. Join our social media family today!

PROTECTING OUR BRITISH IDENTITY

Everyone knows that the burning issue in Britain is Mass Immigration. Without any vote or debate, it has transformed and ruined Great Britain. Isn't it time you joined us in protecting and preserving our precious and unique identity?

We feel like foreigners in our own country, with our traditions derided and our future given away – the BNP is the ONLY political party you can trust to stop Mass Immigration, and to do that, first we must get out of the European Union (EU).

It's time we had a British government who put the interests of the British people first, instead of international big business and the demands and dictatorship of unelected EU bureaucrats.

Next year the British people will have the opportunity to vote to restore self-rule to Britain – the BNP are a strong voice for getting Britain Out of the EU.

There are many reasons for taking Britain Out of the EU. Here are just three:

- Take back control of our borders and secure them to stop the entry of illegal immigrants
- Take the £55Million of British taxpayers' money given every day to the EU and use it instead to rebuild our NHS, increase pensions and provide for the needy here in Britain
- Regain our right to rule ourselves free from the EU

“ As a proud father, I'm concerned for our children's current education and future prospects. As an ex-serviceman, I'm concerned about our security and the safety of our troops abroad. As a businessman, I'm concerned over the economy. As a son, I'm concerned about the welfare of our pensioners. Finally, as the Chairman of the British National Party, I'm determined to help bring about political change that will benefit us all. ”

Adam Walker BNP Chairman

1.6 MILLION CHILDREN IN BRITAIN LIVE IN SEVERE POVERTY AND THE GOVERNMENT SENDS £12.6 BILLION ABROAD IN 'FOREIGN AID'

In 2012, the British Government handed over £1Billion to the 10 most corrupt countries in the world including Somalia, Sudan, Eritrea, Libya, Afghanistan and even North Korea

It's the scandal of our times: tens of thousands of pensioners dying each winter because they can't afford their energy bill, British soldiers refused benefits and social housing, patients dying in NHS waiting rooms because of massive underfunding, and an estimated 1.6Million children in Britain

living in severe poverty – and what does David Cameron do? Sends more than £10Billion of British taxpayers' money abroad in 'foreign aid' each year.

He can't tell you exactly where this colossal sum goes, because the situation in most of these countries is so bad that there's no way of knowing where it ends up.

G7 nations dream up targets which dictate that Britain must send more and more money abroad every time the economy improves, rather than having a real assessment of need

David Cameron funds foreign space programmes and corrupt dictators with our money

We do know that African dictators enjoy lavish lifestyles, terrorists can afford weapons and burgeoning economies can send rockets to space – at our expense while our people are dying here in Britain because they cannot afford the basics. It's a crisis, that's why the BNP will stop foreign aid, until we can provide for our own.

Where has our money gone?

A study by the respected anti-corruption organisation Transparency International reveals that all but one of the 20 most corrupt countries in the world receive aid from Britain

£404M

£210M

£136M

Home to 13 billionaires, one owning Fulham FC

Has its own space programme

Has a £32Billion mining and gas economy

£90M

£27M

£16M

Made £300Million from oil reserves in 2011

Has the largest economy in the world

Hosted the 2010 World Cup

BRITISH JOBS FOR BRITISH WORKERS

**WHEN WE SAY IT
WE MEAN IT**

The politicians have betrayed the British worker with their disastrous Mass Immigration policy and by sending British jobs abroad.

Millions are on the dole or trapped in low wage, zero-hour contracts.

Our ancestors built our country, yet the Labour Party and the Conservatives have looted it and swamped us with foreigners. The Labour Party has spectacularly failed the British worker.

Only the BNP has the interests of British workers at heart, and we are determined to restore to the British people that which is rightfully ours!

We'll end the wholesale looting and the sending of British jobs and industry overseas, reopen the coal mines and begin rebuilding British industry.

Local people must be given jobs before immigrants every time. There ARE enough jobs for our people – British people want to work!

When we say: "British Jobs for British Workers", we mean it! We'll rebuild manufacturing industry and employ our own people first – every time!

- All government and local authority contracts to British firms employing local British workers
- Reintroduce proper 4-year-term apprenticeships providing young people with the skills they need to be self-sufficient and build themselves a career
- Stop the stream of unskilled immigrant labour which is undercutting and replacing skilled British tradesmen with substandard foreign labour
- End zero-hour contracts and provide British workers with job security

"The politicians' false claim that us Brits do not want to work is an insult and a disgrace! The BNP is the only political party you can trust to secure British Jobs for British Workers"

Adam Walker BNP Chairman

Supporting small businesses

The BNP encourages small businesses because they are vital to communities to help create a local vibrant economy. Combined small businesses are one of our country's biggest employers and we want to keep it that way.

However, unnecessary, complex and costly EU regulations are crippling our economy and pandering instead to faceless big business.

By leaving the EU the

BNP can cut away the red tape, allowing small British businesses to thrive.

We'll provide a two year tax break for family

**Small businesses
are vital for vibrant
communities**

start ups, and encourage co-operative ownership to give British workers a fair share of the profit that their hard work generates.

ANIMAL WELFARE

Nationalists are passionate about restoring our Green and Pleasant Land and protecting animals from cruelty. That's why the BNP is committed to tripling the maximum jail sentence for those convicted of cruelty to animals, bringing a halt to the export of livestock for slaughter, and banning the barbaric practise of ritual slaughter of animals including halal and kosher. The BNP has a full range of policies to ensure that the highest of standards are applied to the welfare of animals here in Britain:

The BNP will extend the re-population programme of Red Squirrels, already successfully trialled in Scotland, to include the entire British Isles

The BNP demands a fresh debate on the culling of badgers – far greater scrutiny of the data which warrants this cull as a measure to prevent the spread of TB must be undertaken

The BNP continues to fight the horrific EU policy of slaughtering seals for eating fish in the North Sea because the EU have allowed fish stocks to be decimated by over-fishing

The BNP will host a sensible and mature discussion on fox hunting to ensure that not only foxes are protected, but the identity and traditions of rural communities too

Animal welfare is close to the heart of the BNP because we recognise that a civilisation can be judged on the way it treats animals

Animals deserve better

The BNP actively campaigns to ensure that the barbaric ritual slaughter of animals, whether halal or kosher, is made a thing of the past

British law says that animals slaughtered for food must be either electrically stunned (in the case of pigs) or killed instantly by a bolt action gun in the case of other animals. This process is instant, painless and humane.

It is wrong on every level that Labour and Conservative governments allow the horrific practice of ritual slaughter.

Religion cannot justify

the unnecessary suffering of animals.

The British people are rightly proud of taking animal welfare to our hearts. Bringing an end to the ritual slaughter of animals is the right thing to do.

Denmark has already implemented the ban, the BNP will do the same in Britain.

This barbaric practice highlights the need for one set of laws governing everyone equally.

A core BNP policy is that there can be no exception from British law on religious grounds, because it's fair and right.

Did you know?

It's not just wildlife in Britain that the BNP campaigns to protect and conserve.

£Millions in 'foreign aid' are sent to African and Asian nations with appalling records on animal welfare. These nations have consistently failed to take the necessary action to protect endangered species from poachers and Islamists selling animal parts to fund terror campaigns.

The BNP will provide practical support instead of throwing money at the problem.

The BNP supports the policy to provide African reserve wardens with military training to help them protect endangered species from poachers

NOW THAT'S A WORTHWHILE CAUSE

OUR DUTY

PRESERVING OUR GREEN AND PLEASANT LAND

Our green belt is very precious. Once it's gone, we can never get it back. Not only are these large areas of unspoilt countryside beneficial for our health and enjoyment on many levels, but they provide a natural and vital habitat for Britain's wildlife.

Now they're under threat. As a result of their destructive Mass Immigration agenda, all the other politi-

cal parties are demanding extensive housing projects to be built over Britain's green belt. Only the BNP is taking action to stop this.

While the BNP is known for our anti-Mass Immigration stance, some of our greatest election results have been due to our policy of preserving Britain's precious green belt through sustainable housing.

NO to mutant crops

"You are what you eat," goes the old saying. Which is why the BNP campaigns to keep Genetically Modified Organisms (GMO) out of our food chain. Whether mutant corn on our dinner plates or chemical cattle-feed for livestock, it's simply unacceptable. By withdrawing from the EU Common Agri-

cultural Policy, Britain would then be able to make our own decisions on farming and agriculture without unelected Eurocrats in Brussels telling us what to do. The only people to gain from mutant foods are factory farms and big business – and both put profit before the well-being and health of the people.

A BNP Government would ban the growing of GM crops in Britain and the importation of GM crops. It's traditional farming methods that we need, that's why the BNP will provide support for our farmers to continue healthy farming practises or return to them.

Housing British people

With tens of thousands of our people homeless, including thousands of ex-servicemen and their families, we need a radical plan. The BNP has developed a serious nationalist policy for putting right the housing crisis. The financial crisis created by the banks is being used as an excuse to complete the stealth transformation of our locally controlled council housing into a privatised corporate rent-for-profit empire. The BNP opposes such looting of British assets.

- Implement a land tax on hoarded building land to ensure that more 'brownfield' land is developed
- Remove VAT on house repairs to encourage renovation instead of demolition and new build by corporate developers
- Permit Housing Associations to become housing management agents for empty properties for a 15-year-lease
- Provide tax breaks for all new developments to Code 6 standards (full insulation, etc) using modern technologies and construction methods
- Create a massive building programme on brownfield sites for low-rent social housing that would both create jobs and new homes

THE **NHS** IS A GREAT BRITISH INSTITUTION **SAVE OUR NHS**

The National Health Service is a Great British institution and one of which we should all be proud. That's why the BNP is committed to saving our NHS, making it fit for purpose once again and restoring its status as the envy of the world. Health tourism, massive underfunding and privatisation have reduced our NHS to a state of crisis.

The BNP will introduce a policy of training up more British nurses and doctors instead of looting the Third World of theirs – who are desperately in need of their own. We'll halt privatisation, demand that visitors to Britain have a valid health insurance policy, and fill the current £8Billion deficit with part of the £12.6Billion we save on foreign aid.

RENATIONALISE OUR PUBLIC SERVICES

Services which are crucial to the economy and the day-to-day life and well-being of the people should be owned by the people!

Successive Conservative governments have sold almost every public service they can to the highest international bidder. In a spectacular betrayal of the British people, the Labour Party has continued the Conservatives' legacy by doing the same. UKIP want to sell even more of the British peoples' assets to private investors.

Not only has this been a legacy of looting Britain and stealing from the British people, but it's seen the quality and reliability of public services hit rock bottom.

Take back our public services to create jobs and restore ownership to the British people

Demanding responsible broadcasting

Own a smartphone, tablet or laptop? Then the BBC demand that you buy their TV Licence simply because you could access live transmissions online.

The TV Licence is outdated and scandalous. Did you know there are more women in jail for not being able to pay their TV Licence fine than for any other crime? That's why the TV Licence is widely regarded as discriminating against the poorest in our society.

If that isn't bad enough, at the same time BBC 'decision makers' award themselves massive pay packets for doing next to nothing. In 2014, BBC creative director, Alan Yentob, took a staggering £330,000 for a PART TIME position – twice that of the Prime Minister!

Sadly, the BBC today is little more than a shameless propaganda mouthpiece for the political left. The BBC needs a huge shake up.

The BNP will decriminalise the TV Licence by giving viewers the option of whether they want to receive BBC transmissions or not, then we'll demand that pay salaries and expenses for the BBC 'elite' are investigated.

Did you know?

It costs £145.50 a year for each household – raking in **£3.72Billion** for the BBC!

Nearly **4,000 prosecutions** a week, 70% of which are women

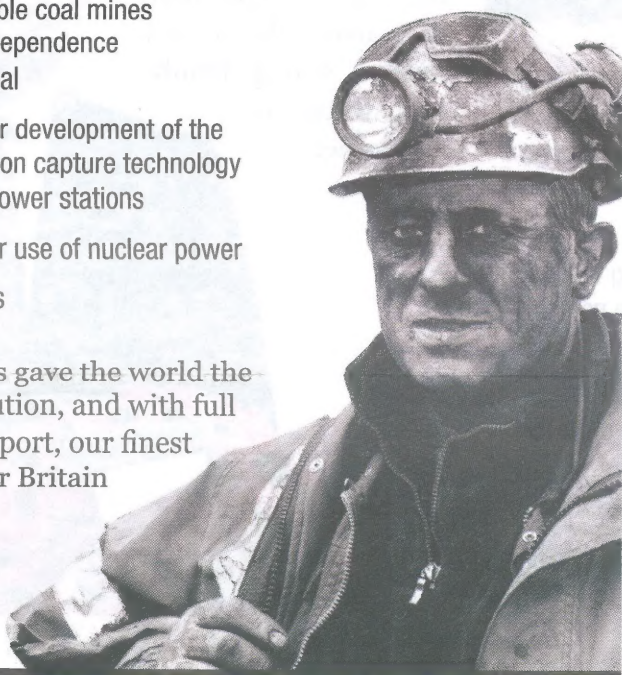

The BBC is responsible for more than **one in 10 criminal prosecutions**

Powering Britain

It's time that Britain looked after our own interests. The BNP will phase out reliance on French electricity and create thousands of well-paid manufacturing jobs by investing in a massive British-owned energy self-sufficiency programme.

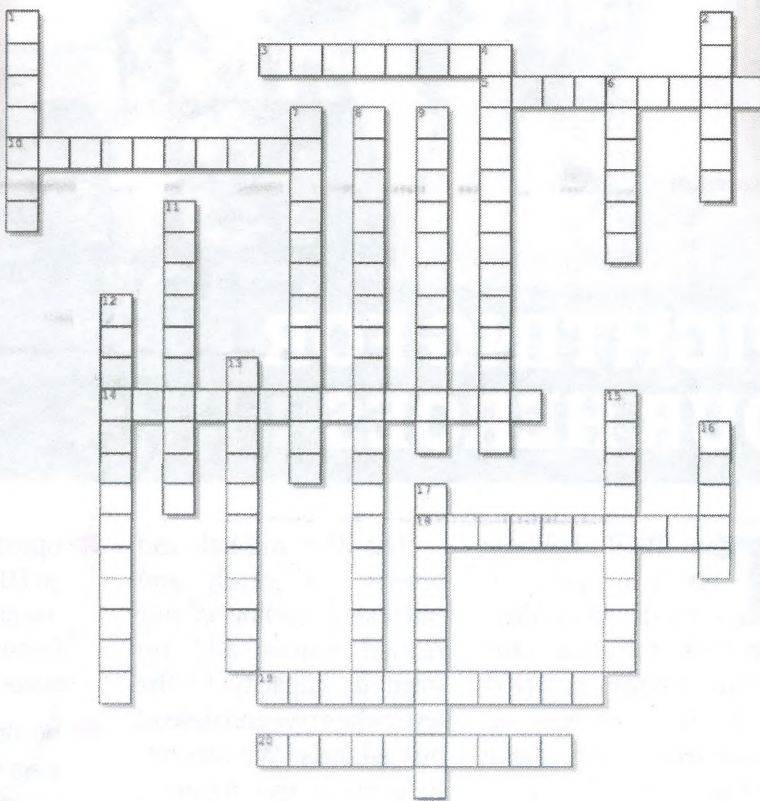

- Immediately bring a halt to the unpopular and hazardous practice of 'fracking'
- Scrap expansion plans for inefficient and environmentally detrimental wind farms
- Reopen profitable coal mines to relieve our dependence on imported coal
- Invest in further development of the promising carbon capture technology for fossil fuel power stations
- Support greater use of nuclear power
- Cut energy bills

British inventors gave the world the industrial revolution, and with full government support, our finest minds can power Britain into the future.

FIGHTING FOR OUR HEROES

The BNP believes firmly in a policy of armed neutrality. The BNP does not want British troops involved in foreign conflicts or adventures that have nothing to do with Britain. Our Armed Forces will exist only to defend British direct interests. We want all British troops withdrawn from Muslim lands because their business is not ours.

The BNP will halt and reverse the steady and calculated decline of our Armed Forces and restore its capacity to the level where we can defend our islands. We strongly oppose the forming of an EU super army.

The BNP will also reintroduce National Service, both military and non-military, to instil in our youngsters a sense of discipline, belonging, worth and identity.

- Oppose the forming of an EU Army and halt the merging of our Armed Forces into an EU super force
- No interfering in foreign wars that are not our business
- Review Britain's membership of NATO
- Rebuild our Armed Forces
- Maintain our independent and small nuclear deterrent

Hope for Heroes

The British National Party supports the British Veterans Group (BVG) because we must fight for the rights of those who have fought for us.

They put their lives on the line for us, we'll fight to make sure they're treated with the respect they deserve when they return, that's why the BVG is an important organisation, and one which is in line with the BNP philosophy of a nationalist family. Like a strong family unit we take of each other.

Below: Lest we forget – British Army Veteran Eddie O'Sullivan lays a wreath in memory of his comrades who gave their lives to protect our Britain

THEY HATE US AND THEY HATE OUR CULTURE

Everybody knows the problems associated with Islam but the BNP is the ONLY political party with the courage to deal with the problem.

The hard fact is that the old political parties have allowed a fifth column of Islamist jihadis into our country. These people not only hate our culture and everything we stand for, but they want Britain to be an Islamic State

and for us to submit to their foreign rule and barbaric ideology – or face death. In short, this is a deadly invasion of Britain – an Islamist time bomb which is literally set to blow up in our face.

The BNP is entirely opposed to the Labour/Conservative regimes' Mass Immigration policy which, if left unchecked, will see Britain and most of Europe dominated

by Islam within a few decades. The BNP recognises that Islam, by its very nature, is incompatible with modern Western democracy.

Rooting out Islamic extremists and Islamist Hate Preachers, expelling them from Britain and shutting down radical mosques is a vital step towards protecting British citizens in our British homeland.

Visit www.bnp.org.uk

REMEMBERING OUR HEROES

More and more British Heroes are fighting on even after they've gone by leaving a gift to the BNP in their wills

On a recent trip to the South West on Party business, BNP Chairman Adam Walker and National Treasurer Clive Jefferson took time out of their busy schedule to tend the grave of lifetime BNP member and Parliamentary candidate, James Connolly.

James was a London railwayman who was horrified at the devastation of his city and coun-

try by Mass Immigration.

Like many others, James understood that only the BNP has the integrity and courage to restore his beloved country. When he died in 2012, he left his entire estate to the BNP, safe in the knowledge that we would continue our fight in his name.

James joins our growing Roll of Honour of British patriots who'll never be forgotten.

No to Islamisation

- ▶ Revoke British citizenship and cancel the passport of anyone who travels abroad to fight for terror groups
- ▶ Deny permission for any more mosques and minarets – which are little more than symbols of territorial conquest
- ▶ Ban the hijab and burqa
- ▶ Closely monitor teaching practises and curriculums in schools to stop the indoctrination of children
- ▶ Withdraw British troops from Muslim lands and stop interfering in the internal affairs of Islamic nations

**FIGHT ON
AFTER YOU'VE GONE**

**If you've
included the BNP
in your legacy,
please let us
know**

**"It's never too
late to save
your country"**
